THE WAR DOGS

Of Greece Still Bark at Turkey's Gate.

POWERS LAND TROOPS.

Weyler Must End the Cuban War in Three Weeks.

200 KILLED BY FALLING WALLS.

Canea, March 11.—The reply of Greece to the demands of the Powers for the evacuation of this island by the Greek fleet and the withdrawal of the Greek fleet from Crete waters, has been sent upon promptly. It is some extent, by the least two of the Powers. When the sun rose this morning it was seen that there were strange vessels at anchor here, and it was after developed that they were British and Italian transports loaded with troops, evidently part of the foreign force which, as the Admirals recommended, will occupy all of the principal seaport towns of the island.

The Turks assert that these troops will be used to drive the Greek forces out of Crete, but this belief is not shared by the foreign population generally.

Owing to the receipt of advice saying that a band of armed volunteers from Greece was on their way to Crete with the intention of reinforcing the Cretan insurgents, the foreign Admirals agreed to dispatch a cruiser to prevent their landing. The Mississinians who were besieged at Candano have arrived here on board an Italian war ship.

WAR SEEMS CERTAIN.

Greek Army May Soon Invade Turkish Territory.

Athens, March 11.—The general opinion here is that war against Turkey is unavoidable. It is believed that armed bands have been sent out by the National League to different points in Epirus and Macedonia and will give the signal for the struggle, and the Greek army on the frontier will then proceed to an invasion of Turkish territory.

The gunboats, Action and Ambrosia, with the gun-vessel Aphrodite, have been ordered to blockade the Gulf of Arta in order to prevent the landing of Turkish troops.

The papers continue favorably the government's reply to the note of the Powers.

The Greek Vice Consul in Canea, M. Harkissis, has been forcibly conveyed on board the Aphrodite by order of the Italian Commandant, Amorette. The Greek government protested to the Ministers of the great Powers against the action of the soldiers.

TURKISH TROOPS

Concentrated on the Greek Border 55,000 Strong.

Constantinople, March 11.—It is announced that 55,000 Turkish troops are now concentrated on the Greek frontier, and it is understood in Turkish military circles that the Greek forces sent into Thessaly do not exceed 13,000 men of all arms.

Bismarck's Organ Speaks.
New York, March 11.—A special to the Herald from Berlin says: Prince Bismarck's organ severely condemns the participation of Germany in the Cretan question. It says:

"It is not correct policy to risk the sound bones of even a single German soldier for Oriental interests, which are not ours, or from alleged Christian and humanitarian motives which England uses to cloak her efforts to advance her own own interests."

200 People Killed.

Tangier, Morocco, March 11.—The collapse of a wall here this morning resulted in the death of 200 people.

THREE WEEKS.

The Limit Is Given Weyler in Which to End the War.

Havana, March 11.—The Spanish government has about exhausted its patience with General Weyler and the report is confirmed that the Captain General has positive orders to end the war within three weeks. As this is an impossibility, it is thought the General will be recalled promptly after the expiration of that time.

MUST VOLUNTEER.

Troops to Leave Towns Where Volunteers Are Not Forthcoming.

Havana, March 10.—Capt. Gen. Weyler has ordered all the regular Spanish troops to abandon the towns in which the merchants and landed

proprietors do not provide, free of cost to the government, three volunteers for every government soldier of the garrison. He has been in communication on this subject with the proprietors, merchants and prominent people who are most interested in preserving their fortunes.

Gen. Gonzalez Munoz, chief of the general staff, sails today for Puerto Rico with his family. Thence he will sail for Spain during the month of April.

Tomás Armas Carrillo, Eduardo Hernandez Falcon, Victor Miranda, Julio Cayo and Miguel Hattrey Cespedes, all well known in connection with the insurgent cause, with seven other prisoners, were sent to the Chaffarin Islands today, and ninety-eight members of the Nangio Society from Mantanzas were sent to the plantation of Fernando Po.

AMERICAN RELEASED.

Antonio Suarez del Villar Liberated From Prison at Cienfuegos.

Washington, March 11.—A cablegram was received at the State Department this morning from United States Consul McGurt, at Cienfuegos, saying another American citizen, Antonio Suarez del Villar, had been liberated.

Del Villar is a native of Cuba, but was naturalized in the United States. The records of the State Department show that he was arrested in Cienfuegos on September 5 last, on a charge of having purchased and concealed arms and ammunition. Upon representations of this government his case was removed from the jurisdiction of the military authorities, who had arrested him and was ordered to be tried by civil tribunal, in accordance with treaty stipulations. That was on December 23 last, but he has been held in prison at Cienfuegos until today, when the order came for his release.

EX-SENATOR BLACKBURN

Arrives at Lexington, But Refuses to Talk.

Lexington, March 11.—Ex-Senator Blackburn has arrived in the city and will tomorrow go to the capital. Mr. Blackburn refuses to be interviewed with reference to the senatorial fight.

He says he will hold a conference with Johnson and decide as to whether he will withdraw. He denies having authorized any statement that he would withdraw in the interest of harmony.

SINETY-ONE COUNTS

In Indictment Returned By Federal Grand Jury Against McKnight.

Louisville, Ky., March 11.—The Federal grand jury has returned an indictment against ex-Senator McKnight, charging every form of fraud and crime possible to imagine in connection with banking transactions. It is believed the defendant will surely land in the penitentiary.

BIKE THREW HIM.

Mr. Chas. Moesquit Suffering From a Fatal Injury.

Mr. Chas. Moesquit, of the Leigh Fruit Company, is suffering from a painful injury received from a bicycle riding out Broadway on his bicycle yesterday afternoon when he collided with a gentleman who stepped off a street car, and fell against a "cut-off" hydrant, tearing his elbow very painfully, and completely disabling him temporarily.

HEADQUARTERS.

Hunter, Boyle and Holt Have Established Them.

Frankfort, Ky., March 11.—The three senatorial candidates, Dr. Godfrey Hunter, St. John Boyle and Judge Holt have all established headquarters and gone into a regular systematic contest for the senatorship. Dr. Hunter claims fifty-one votes in the census and 75 votes on joint ballot of the assembly. Boyle and Holt both pronounce these claims preposterous.

WILL REMAIN.

Most Members of the House Till the Extra Session.

Washington, March 11.—Most members of the lower house of Congress will remain in Washington till the date fixed for the extra session, which is called for next Monday. The Republican members have their hands full looking after the patronage.

RAILROAD NOTES.

A Version of Why All These Wrecks.

NOTHING NEW IN CAIRO WRECK

Something of a Contemporary's Reliable Railroad News.

OTHER THINGS OF INTEREST IN RAILROAD CIRCLES.

"There have been more wrecks on the Illinois Central system within the past three months than ever known before," remarked an old railroad man this morning.

"How do you account for it?" asked a bystander.

"I don't know unless it's because the company has such a rush of business that it overlooks its men," was the reply. "I know of men on this road who haven't had a good sleep in a week. I saw a brakeman yesterday who said he hadn't had his clothes off in six days. Whenever a man gets half asleep, he is likely to do most anything."

But the above is only the rather unique opinion of one man.

No blame has yet been attached to any one as a result of the wreck at East Cairo, Ky., yesterday morning. Fireman Rodgers, who was killed, was a white man and a prominent Mason.

The statement in the "Register" this morning that "all freight and passenger cars on the St. Louis division for Paducah and east will be handled via Fulton" is like most of its other railroad news, founded solely on the fertile imagination of its railroad reporter.

All railroad men who know anything about railroading give the "Register" credit for being the most thoroughly reliable paper on railroad transactions especially in Paducah. Even the "Sunday Visitor" is truthful in comparison.

At Carbonado, Ill., Mr. A. J. Connel has put in a carriage service from the passenger depot to the city. This was rendered necessary by the high water.

There are a few "trips" given by a contemporary that have been fulfilled:

That a fast express would run from St. Louis to New Orleans and pass through Paducah, losing an hour by transferring across the river here instead of making two hours by going through Cairo.

That the N. C. & St. L. incline would be abandoned and all transferring across the river would be done over the I. C. incline, the cars being taken around through the I. C. yard.

That the Union and N. C. & St. L. depots would be consolidated.

The weekly statement that the next week will witness a restoration of the whole force of workmen.

The river front railroad.

That Mr. Hasserman would surely be appointed Master Mechanic.

Ad infinitum.

The St. Louis passenger train due at 7:30 this morning was delayed four hours today by slow running and long delays on the other side.

Roadmaster A. T. Sabin came in from Louisville at noon.

SAY THEY WILL QUIT.

Butchers Mad Over New Cold Storage Rules.

Say They Are to Be Restricted and Overcharged Too Much This Year.

The butchers of Paducah have another kick.

This time it is about cold storage. For the past year or more most of them, instead of maintaining ice boxes of their own at the market place, have paid for space in the cold storage at First and Broadway, only a square away. This was cheaper and equally as satisfactory.

Yesterday they all received notices from the cold storage company relative to getting space this year, and these notices have engendered no little feeling, it appears.

One butcher said to a St. S. reporter:

"Last year we paid fifty cents a foot in the storage, and were allowed to keep our cans of lard on the floor. If we had two calves and didn't want to feed them we could kill them both and keep one or both of them in the cold storage with the lard on. Another thing, if we took out a quarter of beef, or a whole beef, and had any of it left over, we could put it back until the following day. The new notices, however, say that this year we will be charged \$1

per foot, and will be allowed to keep nothing on the floor. Neither will we be allowed to keep calves with lard, nor can we take any beef back that has once been exposed for sale, according to the new rules."

"What are the butchers going to do about it?" was the inquiry.

"They are not going to do anything except quit using cold storage and get ice boxes of their own," was the reply.

"All but one or two have ready signified their intention to do this, and there is no doubt but that they will do like the others."

AFTER MANY YEARS

Col. W. F. Pitcher Comes Back to Paducah.

Recognized Nothing But the Old Fort—Was Here During the War.

Col. W. F. Pitcher, the venerable father of Dr. W. H. Pitcher, the well known dentist, is a guest of the latter. It is his first visit here since the war, and he took a drive about the city yesterday, but recognized nothing but the old fort, which he knew at a glance, and so expressed himself without a moment's hesitation.

Col. Pitcher was stationed here in 1865 as quartermaster of the 34th New Jersey Regiment, and was in the fort the day Col. A. P. Thompson was killed while marching on what is now Tribune street. He witnessed Col. Thompson's death and remembers well the old steamery, known as the "Lang steamery," from which the sharpshooters fired their deadly missiles down into the fort.

The building was burned, and when Col. Thompson, in command of the 3d Kentucky and 7th Tennessee, was crossing the street a shell killed him instantly.

SUIT SETTLED.

Latest Developments Among the Primitive Baptists.

The Church Gets \$2,500 After Due Process of Law.

There are new developments in the Primitive Baptist church mess in Graves county. Two factions have for some time been at war to find out which constitutes the real Primitive Baptist church. They have been having a "wild and woolly" time of it, if reports are true.

Yesterday at Mayfield an important suit was settled. J. L. Frost, deceased, will \$2,500 to the Primitive Baptist church for the erection of a house of worship at Wingo, Ky. The will was contested by the heirs of Frost, and the court decided in favor of the church. They will begin the erection of a church at once at that place, maybe.

It is claimed that one faction of the church claims that it is "the" Primitive Baptist church, and wants the money, and the dissenting faction makes the same claim for the same purpose. Whichever one gets it will build a church with the money.

STATIONARY

Is the Condition of the River Here.

Indications Are For More Rain Tonight.

From the present outlook it is no likely the river will be any full of any consequence in the river at this place for several days to come. However, without more rain it is not expected to go any higher.

The stage of the water has not varied more than an inch here since yesterday afternoon. This afternoon at 3 o'clock the official gauge showed a fraction over 44.1, a fall of nearly one tenth of a foot since yesterday. The Ohio is said to be falling rapidly at Parkersburg, W. Va., but is rising fast at Cincinnati and Louisville.

The Tennessee is falling at Chattanooga and rising at Florence and Johnsonville. The indications are for more rain tomorrow and this may change matters here.

OLD AGE

Appeals Not to Hugh Burrows, Evidently.

MRS. CATHERINE SWEENEY MAD.

Claims Her Son-in-Law Defrauded Her Out of Her Home.

HE ORDERS HER TO VACATE.

Mrs. Catherine Sweeney, who lives near Sixth and Ohio streets, sent for a lawyer and began preparations for making it somewhat warm for her son-in-law, Hugh Burrows, who lives with his wife on the Ogilvie place in the country. She charges him with fraudulently obtaining possession of the little house she occupies, and the lot on which she has lived for the past thirty years or more. Her son-in-law she says has even gone further than this and ordered her to immediately leave the premises, or pay rent. This is the first intimation she had of the rather anomalous condition of affairs.

Mrs. Sweeney is an honest old Irish woman, who can neither read nor write, and who has worked hard for herself and children, as she said this morning, for years and years. Now an effort is being made to put her out of the house and leave her helpless and homeless.

A few years ago the old house owned by her husband burned, and she erected two small rooms with the insurance money she received on it, about \$200. Burrows married an older daughter, and came to her out to Kansas City to live. One of her three children died, and finally she died herself. Burrows afterwards married another daughter, and is now living with her near the city.

On March 21, 1892, Burrows agreed to buy the old lady's interest in the property, according to her story, having already purchased the interest of the remaining children, and was to stipulate in it that she should have a homestead in it as long as she lived.

The deed embodies no such provision, however, as shown by record in the county clerk's office. When the old lady signed away her right, however, she did not know this, for she cannot read, and claims that the instrument was never read to her. At the bottom is simply a "her mark."

Her son-in-law has now ordered her to get out, and she refuses. As yet no official notice has been served on her, and her attorney will at once institute legal proceedings to set aside the transaction on the ground that it was fraudulent.

The river remained stationary all
day yesterday and last night. The
gauge registered this morning 44.1
and stationary, and prospects are
very good for its falling.
The Leybe's fleet tug, Echo, is the
busiest thing in the way of a steam-
boat around this harbor. She is al-
ways on the go from and to the fleet
which lays just above the city.
The Ashland City, away behind
time, arrived here out of the Tennes-
see yesterday afternoon and laid over
here until this morning before return-
ing to Danville, being nearly 24 hours
late.

WRITTEN AT RANDOM.
"I was up at Hopkinsville yester-
day," said Dr. D. P. Jewett, who
left Paducah for the greater field—
perhaps the greater people—of
Harrisville, and I was surprised to
see so many of my old friends in the
asylum there, old friends whom I had
quite forgotten until a sudden meet-
ing brought them all back to my mind.
"Quite a remarkable thing hap-
pened," proceeded the doctor with
visible interest, "while Dr. Letcher
was showing me through the asylum.
A lady came up and spoke to me
calling me by name, but I did not
know her until she told me she was
Mrs. Sil Taylor. Her husband was
a brother to Mrs. Judge Thomas, of
Paducah, and she is well known in
Paducah. I knew her in Harrisville,
but she has been in the asylum
twenty years. The strange part is
that she had never seen me with a
gray hair in my head, or with beard,
and yet she recognized me at once,
and asked me about my people and
about many things of the past that
she recalled with wonderfully vivid
distinctness. I conversed with her
for some time, and she never said a
single thing to indicate a mental de-
 rangement except that she had been
there 105 years."
"I saw an old doctor there, too,
whom I knew years ago in Ballard
county. That was old Dr. Lockhart,
who has been there for years and
years. Then I was introduced to a
man whom at first I did not know,
although he readily knew me. This
was Will Holloway, who used to be
clerk at the old Richmond Hotel. His
affliction is such that he cannot
walk, but talks rationally, and asked
me about my family, calling each by
name." And there were others.
Dr. Jewett says it makes a peculiar
impression on a fellow to find his
boyhood companions or friends wind-
ing up their lives in such a place.

THE DESERT A-BLOOM.
Results of Thrift and Industry on
a Georgia Farm.
Arid Wastes Covered Late Spring Fields
by Refuges from Abasco-Lor-
raine, the Father of a
Poor Family.
In two miles of the Union depot may
be seen a little farm that speaks
louder than words of what can be
done on Georgia lands. A few years
ago this land had gone to waste. But
made it unlight and its owner was
moving with all his energy to sell and
set off to Texas. About this time there
came to Atlanta a family of French
people to work in the factory. This
French family hailed from the little
village called Natizelle, Abasco-Lor-
raine. When the war was raging be-
tween Napoleon III. and the Germans
these people fled from Abasco-Lor-
raine and took their abode in Paris.
When the war ended and Abasco-
Lorraine fell under the government of
the Germans these people preferred to
come to America than to return to their
conquered homes. They landed in
New York city on May 10, 1861, with
only 85 cents in their pockets, a house-
ful of small children and a few pieces
of land. A visit to their home on West
Hudson street, just two miles, and a
look at their surroundings will impress
you of what may be accomplished in
Georgia.
It has been just 14 years since the old
man Bernard purchased this seven-
acre lot. It was considered too poor to
sprout peas at that time, and rough,
red and unlight, but when I look up-
on it now I feel sorry for the fool "Geo-
gia cracker" who sold it for a song
and spent the money moving to Texas.
The whole place has been changed.
Grapes for a number of years, the Ber-
nards are rich, good dwellings, barn and
a wine cellar 90x110 feet, three stories
high and full of wine.
As I have stated, these people were
refugees from Abasco-Lorraine during
the Franco-German war. When they
landed in New York they were seen by
an agent of the Atlanta cotton factory
and made a trade to come to Atlanta.
They sold everything they had to get
to Atlanta, and there was not one of
them that could speak a word of
English. But they could work, and the
whole family went to it, and they went
to planting to save a few cents. By
the aid of two black and white men
of Elias, May & Co., old man Bernard
was enabled to learn the seven-acre
tract, and he at once moved upon it and
began planting grapes and improving
the land. The children were kept in
the factories for a few years while the
old folks stayed at home and tended
the farm.
For three years grapes and grubbing
were all they used to do the work
that our folks performed with the plow.
Pretty soon, though, the little farm be-
gan to bloom and blossom and the ber-
nards began to prosper. They got them cow
and pigs, they saved and stunted till
they could buy more land and more
more pigs. A barn was built and every
spring of grass and every weed was
cut and put in that barn. Then their
grapes began to bear, and they ceased to
be vineyarders, but planted more vine-
yards and then they could buy more
land and more pigs. They were soon
well to do, and so they have prospered
till prosperity and comfort crops on all
their surroundings, and today they
rate their place as being worth much
more than the grapes they raised. They
are now growing grapes as the lands
of France or any other country. Any-
how, their place is a thing of beauty
and their success should encourage us
all to be successful. All over Georgia are
evidences of the generosity of the old
folks. They will give you land and
fruits if you give them the chance. Start
in any direction from Atlanta and once
in awhile you will run across a farm
which has been given a chance, and it is
by these farms that Georgia should be
rich. These are the farms that I saw
land and contentment grows as fine clover
and grain can be grown in any coun-
try. As a sample of his farming, he
makes 10 bushels of oats per acre, while
the native "cracker" brings on eight
and ten bushels. Some dealers told
Crocket and I that these French peo-
ple were as good as dead. They said
vineyards are fine, but these of the French
people, and Mr. Bernard raised this
year thousands of bushels of Irish po-
tatoes among his vines. When I say
thousands of bushels, it is because I
saw them in vines, and for several years
has grown potatoes among them. Con-
vinced that it was no injury to the
grapes to raise the potatoes, he planted
the whole 10 acres this year, and thou-
sands of bushels is the result. All we
have to do is to give the land of Georgia
the same shower that the lands of
other countries receive and they will
respond with as generous yield as any,
and of all varieties.—Atlanta Constitu-
tion.

It will be a loud gang that makes its advent on Easter Sunday, if it happens to be a pretty day. All the motormen on the Paducah line will then come out in new navy blue uniforms, with silver buttons, instead of the old, new caps, and the new outfit. They expect to make quite an impression and catch all the business going on that day.

They won't have to exert themselves to the extent of ringing their bells, however, because they all intend to wear the latest style shirts, which will make sufficient noise to warn all unwary pedestrians.

"OUR FLAT."

At the Opera House Tomorrow Night.

"Our Flat," the delightful 3 act comedy to be presented at Morton's Opera House tomorrow night, is a satire on the custom which some young people have of rushing into matrimony, and trying to set up house keeping on an empty purse, depending on the installment house proprietors and other trades people.

STRANGE PLACE

To Carry Diamonds, But Linnie Morris

HAD ONE THERE.

Officer Barnhart Rescues It and Turns It Over to Marshal Collins.

OWNED BY A TENNESSEE MAN.

Officer Jeff Barnhart today recovered a valuable diamond that was taken from a young man in Camden, Tenn., by a young woman who claims to be his "lover" for several years. The police have been working on the case for a day or two, and Officer Barnhart obtained the sparkler in a rather unusual manner. He went to where the woman was staying, at a house on North Tenth street, and engaged in a game of cards, to deceive her. He finally, after some maneuvering, told her flatly that he wanted the diamond, and found a pocket book concealed in her stocking. He compelled her to remove it, and found some change, and in a smaller pocket in the book the diamond, which he turned over to Marshal Collins. The woman, who had been trembling violently, then broke down and wept and said she borrowed the diamond and intended to take it back. She was not arrested.

The woman's name is Linnie Morris, and she is just twenty years old. She is well acquainted with Officer Barnhart's relatives in Tennessee, and this helped him win her confidence. The stone is now at the city hall awaiting instructions from its owner. It is valued at about \$200 if not more.

TOO MUCH PUGNACITY.

Frank and Will Haffey Both in Trouble.

DITTO MAX WOODS.

Had a Fight and Will Haffey and Woods Went Away in Windy Thompson's Skiff.

WARRANTED FOR STEALING IT.

Frank Haffey, Willis Mount and John Lyndon were charged with gagging in a general fight at Second and Broadway about 5:30 o'clock yesterday afternoon when police court convened this morning. A continuance was granted until tomorrow.

The fight started from Mount's refusal to talk to Frank Haffey, who was drunk. When he knocked Haffey down Will Haffey rushed up and knocked Mount down. Frank in the meantime, procured a cheese knife and cut a wide swath with it. Officers Harlan, Eaker and Etter appeared on the scene, and by this time Lee Murray was involved and attempted to take the officer's pistol from him. He was knocked down for his trouble. John Lyden attempted to act as peacemaker and as usual got the worst of it. All the belligerents who were in court today said they felt like someone had been pounding them with cross ties. Will Haffey, Max Woods and Lee Murray started off in "Windy" Thompson's skiff, but Murray was put out down the river. The other two went on down to Metropolis, where it was reported at headquarters that it had been sold for eight dollars.

This morning Judge Sanders, at the instance of Thompson, issued a warrant against Will Haffey and Max Woods, son of Dave Woods, charging them with stealing the skiff. Murray was not included in the warrant, as he is still in the city, it is understood.

Information was received in the city today that Haffey had been jailed at Metropolis, but Marshal Collins received no confirmation of it.

The stolen boat was "White Wings," and it was sold to Dr. Covington for \$8.

BIG DETECTIVE.

Said to Have Been Here Three Days.

According to Marshall Collins, a Mississippi detective has been in the city for three days after big game, and has secretly arrested one man and lodged him in jail.

Neither he nor the police will divulge anything relative to it, and the Marshal stated this afternoon that another arrest would likely follow before the detective left. At the jail it was denied that anyone had been incarcerated there.

RAILROAD RUMBLINGS.

N. C. AND ST. L. MILEAGE.

Engine 10 is out on work train today.

Judge Burkholder, the king of saw mill men from out at Oaks, is in the city today.

Engine 312, Gideon and Kane in her deck room, drenched back on train 50 this a. m.

Mr. Al Townsend, the efficient special officer for months past, resigned his position today and will engage in other pursuits.

Ed Lofton, the water boiler on the 305 is sick in bed at Lexington, and "Jarbo" added fuel to her flames from there into this city.

Mr. John Jones and his bride, nee Miss Annie Angburn, left on the morning train for Lexington, Tenn., to spend the honeymoon.

Smiles, child-like and bland, enervate the features of all the employees today. The coming of the treasure vault this afternoon accounts for their good humor.

Conductor Tucker will pull in at usual time this p. m. with the pay train. He and his crew are ever welcome and have more callers than all other train crews combined.

An unusual occurrence transpired at the residence of Mr. Angburn yesterday in E. town. A daughter was wedded while her little brother was lying in a corpse in the same house.

Billy Lewis, the young "Con," is winning golden "reps" by the way he gets locomotives over the line. If he don't get through on time it is because some superior train lays him out.

The high price that poultry and hen fruit have been selling at should take a tumble now. Conductor Tudor had in his long train yesterday several cars for the city filled to the roofs with these commodities.

The funeral of "Uncle" Abe Harris, which took place at the A. M. E. church on Thursday street was largely attended, and quite an imposing procession followed his remains to the cemetery.

Owing to a caving in of the bank along the river front track, the switch engine has been unable to get up as far as Rigglesberger's mill since last Saturday. The water will have to fall many feet before it can be remedied.

Gardner Sheppard, the rattling throttle puller on the 305 from the lower division, brought that mogul in on the local yesterday for some slight repairs. The boys will all shake "Shepps" digits once more, and wish him a pleasant visit to his old home.

Fireman Duncan Hicks is awaiting to be assigned to some run. He says he gets rolled often than any diamond heaver on the pike, but now he is the senior of several and the next regular run he takes the shovel wheel, so that gets him off will have to wake up earlier than he can.

A lively runaway took place on Jones street this morning. A small sized mule hitched to a delivery wagon came dashing up that thoroughfare and whirled the corner into South Fifth. He was nearly exhausted when the depot was reached and was caught with little trouble. No damage except the empty barrels, boxes, baskets, etc., were scattered for several blocks.

The traveling public will bear in mind that the N. C. & St. L. run through Pullman buffet sleepers, leaving Nashville every night at 9 o'clock for Washington, Baltimore, Boston, Philadelphia and New York City without change. Parties desiring to visit any or all of these cities will find it to their interest to call on Mr. Frank B. Teachout, the company's gentlemanly representative at 425 Broadway, under the Palmer House, for all information.

Owing to increasing business and for the accommodation of shippers and the traveling public the company has decided to open a down town office. It will be located in the Palmer House building at No. 425 Broadway. Mr. Frank B. Teachout has been selected as the agent and a better appointment could not have been made. He is thoroughly competent, having had a long experience as contracting and general traveling agent on other big systems, is courteous and affable and has already endeared himself to the merchants of the city since he has been the solicitor. The office will be handsomely equipped. A telephone wire will be run in and tickets for all points local and through, will be on sale. Mr. Teachout or his assistant will be found in the office at all times in discharge of their duties, and give information, rates and all other matters in connection with the line. The office is now being renovated and refitted and will in a day or so be ready for occupancy.

ALMOST A MANIAC.

Fights at the Mouth and Wants to Kill Everybody.

A crazy white man, known as "Red," was arrested by Officer Harlan this afternoon near the river and placed in the lockup. His name is unknown. He is in rags and had a red beard covering his face.

He was placed in a cell in the lockup, and proceeded to do battle with some of the colored female prisoners, striking Augusta Ligon in the eye with a lump of coal. He foams at the mouth, and wants to fight anybody and everybody. He will be held.

While the man was being taken to the lockup he struck Lockup Keeper Keller in the face, and it required great effort to overpower the man.
